Dear Editor,

After all the co-author considering several issue related our this manuscript entitle "Factors related to complementary feeding practices during the COVID-19 pandemic in Indonesia" (mjn.2023.0135.R1), we have decided that we would like to remove co-author name (Bunga Astria Paramashanti) from our accepted manuscript. The considerations were that the co-author's contribution was rather minor among other co-authors, and she was no longer associated with our project and our institute. We have already informed her about our intention at her contact address.

Here we attracted the revision of the copyright agreement form and the title page with this email. Thank you.
